

Bion's Legacy: Twenty-First Century Transformations

Saturday 2 July 2016

Keynote speakers to include:

Irma Brenman Pick

Containment: Further Thoughts About
Working Through in the Counter-Transference

Ronald Britton

Bion: Models of Psychoanalytic Theory
and of Psychoanalytic Practice

Chris Mawson

in conversation with

Peter Fonagy

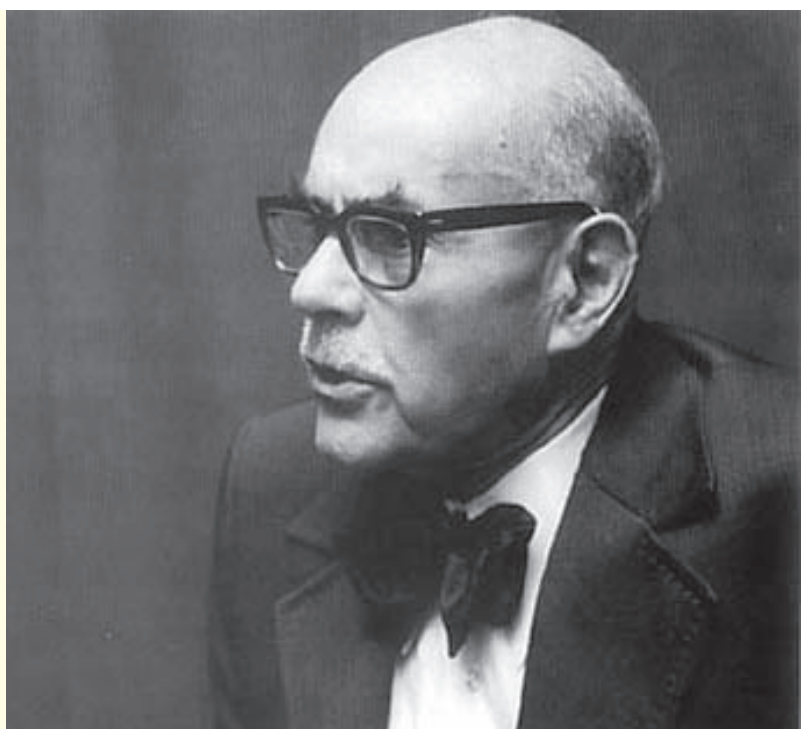

on the experience of editing the
Complete Works

David Tuckett

Transformation, Transference
and Narrative Conviction

Rudi Vermote

More than three decades later:
How Bion's thoughts were further developed
and where are we now

The extraordinary and challenging writings of W. R. Bion creatively transformed the field of psychoanalysis. Even today their impact is being assimilated and digested, a process which will be greatly facilitated by the publication of his complete works. This conference celebrates the publication of Chris Mawson's monumental sixteen-volume edition of Bion's Complete Works, which will smooth the path for future readers to produce their own transformations. Ron Britton, Irma Brenman Pick, David Tuckett and Rudi Vermote will offer unique perspectives on Bion's remarkable work. Understanding Bion through the eyes of major contemporary contributors is perhaps the most effective way of appreciating his seminal contribution. Chris Mawson will discuss aspects of his encounter with Bion in the process of editing the Complete Works in conversation with Peter Fonagy.

Admission: Standard Rate £100 | Candidate / Part Time Student Rate £80 | Student Rate £50

** Costs include refreshments, lunch, welcome packs, and evening drinks reception*
